

**8 day training schedule for CAUS Scientific Diver course**

<b>Day 1</b>	Paperwork / Legislations and Standards / O2 provider / 1 <sup>st</sup> aid / Pool Session for skills and watermanship evaluation
<b>Day 2</b>	Skills demonstration in open water 2 dives / Equipment
<b>Day 3</b>	Simulated working dives 2 in open water / Physics
<b>Day 4</b>	Simulated working dives 2 in open water / Physiology
<b>Day 5</b>	2 training dives in open water / Environmental considerations
<b>Day 6</b>	2 training dives in open water / DCIEM dive tables
<b>Day 7</b>	2 rescue dives / Dive accident management
<b>Day 8</b>	2 rescue dives / Exam

Dives on days 3-7 are required for certification as level 1, if not completed then certification as a “diver in training” may be obtained.

Dives will be conducted during the day and lectures in the evening allowing for the option of obtaining certification as either level 1 or “in training”
